# ARISTON HOSPITALITY

Welcome to  
**Ariston Hospitality,**  
where **your vision**  
becomes  
**our mission.**

For more than 60 years, Ariston Hospitality has been creating distinctive furnishings to exacting specifications. With a commitment to originality and sophistication, and an Old World approach to craftsmanship, we design custom seating and casegoods solutions for high-traffic environments, from boutique hotels to corporate offices. By combining state-of-the-art construction methods and time-tested production techniques, our highly skilled team handcrafts every item; expertly fashioning raw materials into handsome, durable pieces of furniture.

As a multi-national manufacturer, we can cater to your unique requirements, provide inspiration, and source materials from all over the globe.

Our constantly vigilant management team oversees operations in the U.S. and China to bring abundant resources to bear as we collaborate on manufacturing and design. In concert with sourcing production components and materials, we strive to identify and reduce the impact our operations have on the environment. We achieve such efficiencies while implementing practices that con-serve and protect our natural resources.

The lumber we use is harvested by suppliers who reseed and manage their lands using advanced reforestation techniques. All of our components and materials, such as exotic woods, are chosen from responsible and reputable suppliers. Our production facilities incorporate a variety of environmentally friendly manufacturing technologies and innovative procedures to conserve energy and reduce waste. Dust collection systems are used to reduce airborne contaminants and maintain a healthy environment for our employees.

We've created a community of devoted personnel in both countries, many of whom are second generation craftsmen and are embraced as family members. Bridging the

gap between east and west, our staff works as a team to accommodate your every design challenge, communicate with you through every step of the process - from initial concept drawings through production - to ensure on-time delivery.

We take pride in meeting the creative needs of design professionals around the world who share our commitment to distinctive hospitality and commercial furnishings, quality construction, refined design and comfort. Whether for guest-room, boardroom, lounge or lobby we offer you beautiful, custom-made furniture that seamlessly combines our global aesthetic and your individual vision. Contact us to explore the limitless possibilities.
